South African Ostriches
Ex-Sarmiento from
CAPE TOWN
This vessel has arrived at B. Aires with a cargo of
200 Ostriches
which we now offer for sale to the public of the River Plate.
The majority are full grown breeding birds from six or eight years old, and there is also a number from six months to four years old. They are all selected birds, many were bred by ourselves from the first stock, the rest are from the most celebrated Ostrich farms in Cape Colony.
An Ostrich yidds from £8 to £30 sterling worth of feathers every 7½ to 9 months, the value of the plucking, and time occupied in growing the feather depending upon the state of the pasture; in this country where the camp is so much more luxuriant and grain so much cheaper than in Cape Colony the larger amount will probably be nearer the average return.
One pair of breeding birds produce from 30 to 60 chickens per annum, which sell readily in Cape Colony when a few months old from £20 sterling each; if only this low figure be obtained the yearly income will range from £600 to £1200 sterling, earned from one pair of birds.
There is not a more profitable industry in the world than Ostrich farming, and so highly is it valued in South Africa that several petitions have been presented to the Cape Parliament praying that exportation be prohibited, and one bill is we believe actually before the House, seeking to place a heavy export tax upon these valuable birds.
We have therefore every confidence in bringing this shipment to the notice of the farmers of this country.

ZOEDONE
THE NEW DRINK
A restoring & stimulating but non-alcoholic
BEVERAGE
Letter from Dr Lucas, Bombay, Medical Dept. Author of the Elements of Indian Hygiene etc.
"I am of opinion that your invaluable aerated beverage Zoedone deserves the highest attention at the hands of the Indian public. It is not only a health giving drink but essentially, containing as it does the quadruple phosphates of Iron, Lime, Potash, and Soda, a health restoring drink par excellence, reviving and refreshing the vital powers. It would be a blessing indeed if we could see it introduced into hotels, restaurants, regimental messes and canteens. To weakly females in India it would decidedly tend not only to the amelioration of their own health, but that of their offspring, the future generations of men and women. I need scarcely allude to its indication as a remedial and dietetic agent in cases of malarial cachexy, phithis etc."
Letter from Geo. S. A. Ranking, M.A. M.D., Cantabe Surgeon, Indian Medical Department.
"I am of opinion that in Zoedone is to be found a complete solution of the problem which has long exercised the minds of the Medical profession in India, viz., the discovery of a beverage which shall assuage thirst, restore nervous waste, and while being palatable, be also non-alcoholic. It is my firm conviction that if Zoedone be introduced into India it will meet the requirements of those who wish to restore their nervous system without impairing their liver."

ARGENTINE INDEPENDENCE.

To-day is the 65th anniversary of the Declaration of Independence at Tucuman, when the family of nations received a new member and South American annals marked a new epoch. Most nations are proud of their history, and if there is much to be lamented in the dark period of civil wars, there is also just motive for pride in the progress which the country has made and the brilliant prospects that seem in store for it.

The Argentine Republic can at least boast of as free institutions, as fine a climate, as prolific a soil, as rapid a growth of trade and as much relative progress as any of the most favored nations of the age.

Not only does the Argentine Constitution allow more complete religious liberty than the majority of European States, but even in civil rights it goes much beyond England or the U. States. Foreigners here can buy lands or houses and inherit real property, which they cannot do in England or North America, unless enrolled as naturalized citizens. The magnitude of this boon is attested by the large transactions in landed property, especially among Irish residents, which we report almost daily, tending no doubt at the same time to the benefit of the country and enhancement of public interests; but this cannot detract from the liberality of the law in our regard.

If we ask ourselves how is it that this Republic progresses more rapidly than any of the British Colonies we are puzzled for a reply, especially as Englishmen are naturally prone to think that they are greatly instrumental in the advancement of the country.

Give us twenty years more of peace, and in all human probability, Buenos Aires will rival N. York or Liverpool in the magnitude of its trade, immigration will amount to a thousand daily, our revenue will be a hundred millions, our railways and telegraphs count thousands of miles, and the prosperity and importance of the country exceed the most sanguine anticipations.

We have great faith in the destinies of this Republic, and while cynics sneer and call us an enthusiast, we content ourself with comparing the statistics of 1870 with those of 1880, calculating a similar progress between this and 1890.

RAILWAY AND COLONIES

The great, so-called, Rothschild scheme is again on the tapis. Messrs. Pongratz and Neumayer have published the project. The Pyramids of Egypt and the Chinese Wall are insignificant when standing in the light of this gigantic scheme. Old Karnak may be termed a village, when compared with the Arabian fortunes that smile on the birth of the new town in Bahia Blanca, to be called Roca. These gentlemen evidently have not visited San Blas, or they would have proposed that beautiful spot for the future capital of the southern hemisphere. The scheme runs as follows:—

A broad gauge railroad will span the pampa between Bahia Blanca and Nahuel-Huapi, the lake of Indian fables and the finest reservoir in South America. Starting in a southerly direction the steel rails will connect the banks of the Colorado, touch at Chole-Choel, and run through the length of the fertile valleys of the Rio Negro and Limay, to the lake at the foot of the Andes. Valdivia, in Chile, is to be joined to the railroad.

The second railroad will begin at the Colorado junction bridge, and follow the course of that little known river until the rails reach the well-known Antioca Pass in the Cordillera: at this point the Chilian line of Concepcion can be connected with the Argentine Railway.

The third railroad will be the most costly and difficult, owing to the many natural obstacles in its way. The rails will be laid down from the Rio Negro junction, towards San Rafael and Mendoza. This part of the country is only known to the Argentine military men who reported it to be the most favoured spot in South America. Innumerable streams irrigate smiling valleys, and Nature there far surpasses Fenelon's description of the Isle of Calypso. San Rafael and Mendoza are the future granary of this continent.

Telegraph lines will be constructed 'pari passu' with the railroads: the latter will have a total extension of 500 leagues. On either side of these lines colonies of a cosmopolitan character are to be gradually established during fifteen years, until the colonists number 2,500,000 new arrivals. This is an abnormal feature in the history of the world: it means an invasion of progress and prosperity, of spades, shovels, ploughs and steam engines. Volumes may be written on the subject.

The surveys will be made by a staff of engineers belonging to the company. A battalion of infantry and two Krupp batteries are to be favoured by the National Government, in order to protect these scientific men. Within one year of approval of the surveys the works are to begin. The concession of the railway lines to last fifty years, exclusive of war time.

The system of colonization is to be termed Hirica-Argentina; the hardy sons of Galicia (Austria), Silesia, Bohemia, Bosnia, Herzegovina, Montenegro and Dalmatia during 15 years will be shipped in steamers of the company to the future capital Bahia Blanca. Immigration from those countries is easy, as in no other part of Europe is the struggle for life so hard and so ungrateful in its result. The Slav, the Madgyar, and the descendants of Scanderberg will find in the valleys of the Negro and Limay what their wildest fancies led them not to expect. The Anglo-Saxon race is also included in this torrent of immigration, which will double the population of this Republic.

The concessionaires ask in return for their gigantic scheme of 500 leagues of railway and 2,500,000 immigrants, 10 leagues of land on each side of the railways projected. In San Rafael and Mendoza they request the lands lying waste. In Bahia Blanca they require 8 square leagues of land to build the future town and harbor of Roca. Naturally the Government will concede many privileges in case the scheme is sanctioned; the port of Roca to be free of duties during 15 years; no contribucion directa, no taxation &c. during same period.

The town of Roca is to be built on a harbour, stated by the engineers to be one of the finest in the world. The town will cover an area of eight square leagues: 24 sections of 400 squares each: in each square 100 yards will be reserved for the Municipality, where all the refuse of the surrounding houses will be received, drained and turned into a luminous gas. The streets will be twenty yards wide, the pathways nine feet on each side: the boulevards 50 between the trees. The cemetery is to be a public park; far better to construct large ovens for cremation, and thus inaugurate with the new era a reform in our burial system. The shades of Nineveh, Thebes and Babylon threaten to cross the Atlantic. Such a gigantic change will necessarily involve a radical reform in everything—customs and manners, nay, perhaps, nationality.

In order to summarize, we see that the concessionairrs demand 14,000 square leagues of land, of which eleven thousand will be distributed to colonists: 3,000 remain, mostly at the foot of the Cordillera, all which at $400 fts. represent a total of $fts. 5,600,000: eight leagues in Bahia Blanca at $6000 fts. $48,000: the latter comprise the city of Roca, where the Government may claim all the land necessary for public buildings, parks, &c.; the working of all the natural produce, of the fauna and the flora: the construction of Custom Houses on their own account, which may yield them double the outlay of building: free importation and exportatation for a limited period, for the benefit of commerce in general and of the colonists in particular.

On the other hand the concessionaires populate during 18 years 41 colonies: each colony to comprise 500 families of eight persons on an average: at the end of 15 years this will give $2,500,000 m/c; calculating at the end of the 15 years, from date of establishment that the property of each colonist be worth $fts. 4,000, the contribucion directa of 3 per mil will give $12 fts: each colony, comprising 500 families; this tax will give $6,000fts: thus after the 15th year the colonies will yield:—

Year	Colonies	$fts.
17	82	246,000
18	123	492,000
19	164	984,000
20	205	1,230,000
21	246	1,576,000
22	287	1,722,000
23	328	1,968,000
24	369	2,214,000
25	410	2,460,000
26	451	2,706,000
27	492	2,752,000
28	533	3,198,000
29	574	3,444,000
30	626	3,750,000
Following 20 years		75,000,000

Thus during the 50 years of the concession the Government will receive, exclusive of the revenue from increase in population, $f.104,600,000. After the first 15 years the Government will enjoy the Customs dues, which are estimated at $f.12,500,000 per annum, making a total for the 35 expiring years of the concession of $f.437,500,000. From the latter amount must be deducted the cost of the Roca harbor, which will amount to $f.145,500,000; nevertheless there remains a balance in favour of the Government of $f.292,000,000, which, with the contribucion as above, the railways etc., after 50 years concession estimated at $f.20,000,000, the telegraphs, 2,500,000; a first-class harbour, 145,500,000, make a grand total in favour of the Argentine nation of $f.559,032,000.

Contemplating the magnitude of such a monumental scheme, we drop the editorial pen and pause to reflect whether it is too grand to be true. No lanterns are needed to find

out the Argentines who dreamt they would bask in the sunshine of prosperity with Custom House receipts at $f.10,000,000 per annum; and, should General Roca lay the foundation stone of the regeneration of South America by sanctioning this scheme, we despair of ever gauging the future of this country, destined to eclipse all others in wealth and prosperity. Argentines themselves will not credit their senses should this colonization and railway scheme pass. Verily, the frontiers of the Republic appear too small for the population of the coming race.

It cannot therefore be affirmed that Misiones is at present in a fit state for industrial occupation; and if she be destined to a future such as her intrinsic merits seem to indicate, this predicate of the proposition undoubtedly necessitates the preliminary hypotheses of Federalization and consequent subsidence of Brazilian supremacy, the introduction of law and order, the mapping of her coasts and survey of her lands, the introduction of transport facilities and postal and telegraphic communication: and these are the preliminaries to be adjusted, ere the hope of an extensive and successful settlement on her territory can be indulged. Once placed in this position, Misiones will be in every man's mouth, but short of this the sleep of decades will be prolonged.

The present resources of this favoured land are comprised in the vast 'yerbales,' an unlimited supply of timber, fruit, stone and metals, its cattle, a hyper-fertile soil, and an infinity of pure streams, aided by a climate of the highest degree of salubrity.

The 'yerbales' lying at the extreme north-east of the sub-province are indigenous forests of 'maté' which, if properly tended, would be a source of immense wealth; they are completely unapproachable landwards save by a very narrow track cut right through the otherwise impenetrable forests which are crowded with pumas, jaguars and venomous saakes, and here perhaps is the only example in Christendom of an outlawed society. The wealth of timber is such as to overpower the mind only accustomed to the denuded plains of Buenos Aires: Imagine entire forests of cedar and jacaranda, which would pay the whole of the Argentine foreign and domestic debt ten times over! to say nothing of equal or superior regions covered with all the inferior yet useful woods for building purposes; and yet few comparatively engage in the lucrative business of wood-cutting, owing to the unsettled state of the country. The trunkz are hewn from the virgin forests near the 'yerbales' and after being squared are floated down the numerous streams to the Uruguayan coast, where large rafts are constructed, on which wooden sheds are erected for the protection of the men. These are then dismissed on their fearfully perilous, giddy and maddeningly rapid journey down the river, shooting the rapids with frightful velocity, until at last, whirled, twisted, jerked, bumped and battered, they arrive at their destinatioa.

Legitimate employment of the timber as fuel in sugar boiling and refining, smelting and other industrial operations would be hailed as an aid to productiveness, but even then would reqnire to be under legislative control; but as it is there is a like wanton destruction of the woods as of the ruins, for these indolent wretches often cut down fine orange trees of a century's growth, in order to bag the fruit and save the exertion of knocking it down with a cane: so to obtain the wild honey which in rich abundance clusters in the topmost branches, the noble trunks are felled and invariably left to rot on the ground amid brakes and moss.

THE TELEPHONE WAR.

Mr Editor.

As Agent of the Gower-Bell Telephone Company I desire to say that we have no lawsuit pending with any other Telephone Company, and that if Mr Keyser has been placed in prison, it is for cutting wires. Four times in succession he ordered the cutting of the line of Messrs. Cibils Brothers, at the corner of Caugallo and Maipu; as often the police patiently attended to the repairing of it; such vandalism would be punished with thirty days' imprisonment in the U. States. Not content with this, his people have for the past four days been dragging wires over those of the Gower-Bell Company, at times for more than half a day, entirely cutting off communication between the Plazas and the Centre of the city, to the extent of even depriving the President of the nation of being able to talk with the Government House. He has also placed a wire in contact with that of the Provincial Minister of Finance, so that for eight days the Minister has been placed 'incomunicado' ,telephonically speaking, with the Governor, and the wire is still there, rendering the telephone useless to the Minister. I make this explanation that the patrons of the Gower-Bell Telephone may understand the cause of the disturbance to their lines, and of the annoyance it has caused to their business.

Very respectfully

Benjamin D. Manton

EDITOR'S TABLE.

"The Ninth of July." Again it is our pleasing duty to salute our Argentine friends and colleagues on the great anniversar of their freedom. They know by this time the *Standard's* regard for its adopted country, so we will say nothing more than that we wish it and them 'many happy returns of the day.'

The Neva's mails were delivered early yesterday. The newn will be found in our Supplement. Things are getting decidedly hot in Ireland, and the wisest can make no guess as to how it is all going to end, or if it will ever end at all. The landlords will all be in the poorhouse soon, if the 'No Rent' programme be carried much further.

The Colon Theatre literally 'blazed' on Thursday night, at Madlle Borghi-Mamo's benefit. We have never seen such an audience before in the old theatre—beauty, diamonds, fashion, wealth, talent and everything that is tip-top was there. President Roca occupied the State box, with his Ministers; the Corps Diplomatique were there, and such was the squeeze from floor to ceiling that some distinguished members of the body had to put up with a seat in the pit, and be glad to get it too. The stage was a mass of flowers, and the prima-donna can hardly have got before in any land such an ovation. The 'entusiasmo' was at fever heat all night and fairly boiled over when the gifted artist sang the charming cavatina from the Barber in a style, and with a taste and finish that we have never heard surpassed, except by the great Alboni herself; but the present generation have little idea of what that portly warbler was. Tamagno seemed to excel himself for the benefit of his fair fellow artist, and all the others did their best also, leaving nothing to complain of in the 'tout ensemble.' It was a great night at the Colon.

The news from Motevideo is of the old see-saw kind. Yesterday President Vidal was determined to resign: to-day he is determined to do nothing of the kind. Yesterday Public Securities rose 2 per cent. now they have fallen 2 per cent. Pshaw!

We are glad to welcome back to the Plate an old resident, Mr John Rorke, who has arrived by the Neva. He reports Dublin quiet, but the rest of Ireland boiling over; he looks ten years younger than when he left here during the revolution in June 1880,

Letters by the Neva announce the death (previously notified by telegram) of Mr Robert Gibson, of the firm of Gibson Brothers, the great estancieros at Tuyu. The lamented gentleman had been ill for some time, owing to the very severe winter, Thus has passed away one of our original sheep breeders, inferior to none in intelligence and keen foresight, and who continued to the last here, revising the lists of the weight of the fleeces of the different flocks, and studying their further progress. Peace be with him.

There was a moisture (we dont like to say a 'drop') in the eye of the Clerk of the Weather yesterday which awakened fears that he means to play the Independence Fetes to-day an ugly trick. He is quite capable of it, but, if he does, he need never again appeal to the *Standard* for a character. The fetes began yesterday at noon with a salvo of rockets that reminded us of the old bulletin days of the Franco-German war. The general programme for to-day is the same as usual on these occasions, but the military parade and the fireworks will be especially grand.

We fell into an error yesterday in announcing that Mrs Krutisch will sing at the Quartette Society's concert at the Coliseum on Monday night. Her daughter, Mrs Krutisch de Voss, had kindly promised to sing, but as she is suffering from a sore throat she cannot do so. In spite of this loss, however, the programme is still a most attractive one, Madame Urzo, the great violinist, having several morceaux assigned to her. A crowded audience may be expected.

There is at present loading in this port for Havre the ss Dotterel, 1460 tons reg., 700 horse-power, Captain W M Dobson. The fact of a steamer loading in this port is a matter of such small public interest now that few people, except the agents and shippers of goods, pay any attention thereto; but a very particular interest is taken in the Dotterel, as she is an Irish steamer, the first that has arrived since the days of the Malcolmson Bros. Belfast boats. The vessel belongs to the Cork steam ship company and has come to the Plate from Genoa with general cargo chartered by Messrs. Schiaffino. She was built specially for the Charleston trade, was the first Irish steamer that arrived at that port from Cork, and was the pioneer of a large trade between the two ports. We wish the Irish community here could feel as enthusiastic at the arrival of an Irish steamer as that of Charleston did, where the Captain narrowly escaped the pleasures of gold-medalling. We had the pleasure of experiencing the hospitality of Captain Dobson and in toasting the future of Irish trade with the Plate, and could not help recalling many pleasant recollections of 'The pleasant waters of the River Lee', and the beautiful bog-oak fittings brought vividly back to our memory the arbutus bowers of Killarney. We hope ere long to see the Cork s.s. Company succeed in establishing, on their own account, a constant trade with this Republic, and that the gallant captain of the Dotterel, whom we most warmly welcome amongst us, may never have cause to regret his coming to a port which has proved so hospitable for many of our fellow countrymen.

The Variedades Theatre opens this evening with an attractive 'menu.' The house has been so transformed and improved, that its 'habitues' will hardly recognise it.

We had dozens of visitors yesterday to inspect the apple from Nahuel Huapi, but, strange to say, there was not a lady amongst them, although we specially invited our fair readers to come and see it. A leading English 'tendero' declared that it was quite 'a civilized apple.' So many of the visitors took a nibble at it, that there is precious little of it left.

The employees of the Police have been driven to the verge of insanity during the past few days owing to a colleague announcing that they had been paid their 'haberes' for June. The 'duns' are round them like mosquitoes, and all their solemn protestations that the news of their having been paid is false, are met with sardonic grins by their ferocious creditors. It is really most indiscreet to give such a piece of news at all, much more so if it is false. Another colleague calls this a 'comical' business. The tormented policemen cannot see the point of the joke, although they undoubtedly feel it.

There will be Mass at San Roque Church to-morrow at 1 o'clock, and a sermon in English immediately after.

The mails from Sandy Point clear up the sad affair of the Doterel. Only twelve corpses (two being of officers) were recovered from the wreck, and interred in the cemetery. All the rest of the crew were blown to atoms. Six guns and a Gatling mitrailleuse were recovered. The cause of the disaster was not the bursting of the boiler, but the explosion, while loading it, of a torpedo, which fired the magazine.

Two Police Commissaries at Montevideo have just pocketed the sung sums of 2500 pats. each, the reward offered by the Bank of Porto Alegre for the capture of the criminals who some time ago stole a large sum from that establishment and were arrested in Montevideo by the lucky Comisarios.

The Paris papers are full of a duel fought between two students of the Military School, one of them an Argentine—Alfredo Urquiza—the cleverest boy in the school. This latter circumstance induced jealousy and cheek from one of the French boys, who challenged him. The General in commaud gave the necessary permission but, the French lad demurred to fighting with swords, as Urquiza is the best swordsman in the School. Finally the duel came off with pistols, and the Argentine 'winged' his man. It is lamentable to see boys taught to arrange their disputes in this bloodthirsty way. Far better the good old English fashion of letting them settle their quarrels with their fists, without the risk of committing murder. However, young Urquiza appears to have behaved very well in the business, and he was not to blame.

The private fortune of the late Czar was £12,000,000, mainly derived from the gold mines of the Romanoff family in the Ural Mountains and Siberia. Princess Dolgorouski managed to secure out of it the trifle of £3,000,000 for herself and children. Our countryman Bonanza Mackay, we should say, has a far larger fortune. We have seen it set down at 204 millions of hard dollars, but this seems incredible. We wish Mr. M. could be induced to come out and have a look at the mines in the Interior. His experience would be invaluable, and, besides, he might take a fancy to buy up two or three provinces as estancias, which would bring an ocean of fresh capital into the country.

There was a most amvsing interview in Thursday's *Nacion*, North American style, between a reporter of that paper and General Osborn, U.S. Minister, on the subject of President Garfield's attempted murder. It is splendidly done, and we only regret that we have not space to reproduce it.

Our esteemed colleague *La Patria Italiana* says that things have lately much improped in the National navy, and order, discipline and morality are being gradually restored.

Some of our colleagues feel rather nervous at the fact of there being 600 cases of gun cotton stored in the Artillery Depot at the Parque. Such a quantity of such an explosive for a near neighbour is not calculated to make the citizens in that quarter more comfortable, but although periodical scares are got up about this Depot, nobody that we know of has yet been blown into the middle of the next century. Nevertheless, the gun cotton should not be stored at the Parque, if it is, which we very much doubt.

There was an expiring revival in the gold market to-day, which resulted in an increased fall. The bell of the Bolsa seems at last to have rung the dirge on 26, and prices tumbled to-day to 25.75 for end of month, sellers offering on all sides, and fat 2 o'clock much gold remained over unsold. The vencimientos reached about 250,000 pats. and the cash sales some 270,000 pats. The bottom seemed to be out of the tub when the news we gave this morning was confirmed, namely that the houses are selling gold to pay for Cedulas and Treasury Bills that go in the French mail to Europe. Gold opened at 25.85 and closed at 25.80, and for end of month opened at 25.85 and closed weak at 25.75; for August 25.55, and for November 25.50.

Cedulas very firm and very beared; the market resists, however, all the bears, and each day increases the 'descubiertos' for the month; 73,900 sold, of which but 900 changed hands.

National Bank Shares firm, spite of one well-known broker selling. A strong combination to take up some 5000 to 7000 shares, they say, is formed, which is far too strong for the bears and the over-easy money market.

Exchange closed for this mail with bills over, and bills were passed this morning on London at 49⅛-⅜. As a matter of course the rates in paper are steadily advancing, and soon the quotations, paper and gold, will be the same.

At the Industrial Club conference held last night at the saloons of Colon, there was a good attendance, Ex-President Avellaneda in the chair, who made a most luminous speech tracing the Club and its labors from its first starting in the midst of the great crisis to the present; nothing could surpass Dr Avellaneda's address for eloquence and beauty of expression; he was frequently interrupted by bursts of applause, and we have heard few speeches made by Dr Avellaneda that rivalled his discourse last night, his peroration was particularly felicitous; the Club may well feel proud of their Hon. President. Sr Calvo followed Dr Avellaneda, and in a capital speech explained to the club the great advantages the country has reaped from the settlement of the Capital question. Sr Calvo with admirable tact touched on all the passing topics of the day, and suggested to the club that it send 2 members to the new Municipal board. The room was crowded with foreigners chiefly mechanics, one or two lawyers. At the conclusion numbers went up to Dr Avellaneda and congratulated him on his splendid oratorical triumph, and also felicitated Mr Calvo on his happy address which so enlivened the meeting.

The sales at the ring were—
For cash 243,781 25.85-80
For July 31st 235,000 25.80-85-75
For July 15th 130,000 25.85-80
For August 31st 365,000 25.85-70-80-55
For Sept. 30th 25,000 25.60-55
For Oct. 31st 20,000 25.55
For Nov. 30th 25,000 25.55-50
For Dec. 31st 35,000 25.55-50
Sales, 1,078,781.

Cedulas—
For cash A 900 98⅛-⅞
For July 31st A 40,000 at 98⅛-⅝
For Aug. 31st A 33,000 98⅛
Sales, 75,900.

Nat. Bank Shares—
For July 31st 650 shares at 96
For Aug. 31st 450 shares 97⅛
Sales, 1,100.

Prov. Treasury Notes—
For July 11th 50,000 at par.

The 'novedad' at afterhours was the sudden jump in Cedulas; a leading English broker bought cash 39,200 at 99 and wanted to buy 11,000 more, but could not be had. 10,000 were sold for end of month at 99, and then 20,000 at 99⅛. The most remarkable feature of the Cedula market is that the houses are all buying, also outsiders, whilst those who sold so heavily have bought as yet nothing. As we predicted the market has proved, and it is no stretch of imagination to mark Cedulas before the end of this month firm as a rock at 5 prem.

It was not generally known on 'Change that besides the 200,000 Cedulas shipped to London to-day in the Orenoque, the Leibnitz on Tuesday takes another lot of 200,000; although invoiced fondos, they must necessarily be Cedulas, since in the whole market 200,000 Bonds are not to be had.

Thus in a moment we have 400,000 Cedulas taken off the market for London, and as the stock is in great favor amongst foreign holders and pays 8 per cent, we believe that a million sterling will find its way into the stock for the London market. The dream of years is at last realised, and Cedulas are at last placed on the London market; before the winter is over Series A, 8 per cents, will probably be selling in the Bolsa at 10 premium.

Such was the fuss and stir at after hours in Cedulas that gold posse sed very little interest. A sale of 60,000 pats. for the end of the month at 25.75 was the most important business of the afternoon.

National Bank Shares at last begin to look very strong and upward. Prices rose to 97⅛ for end of month, closing large buyers at that rate; but from the very firm tone of the market, it looks as if the stock with ease will be taken to par, and the very heavy sellers descubierta for end of month will have to buy back at severe loss.

The Strabo left San Nicolas at noon yesterday, taking 1100 tons cargo from the Parana; she sails on 10th for Santos.

Mr. von Meyeren, the well-known money broker, took leave of his friends to-day; he sails in the Strabo for Santos to recruit his health. We hope to see him soon back.

The Leibnitz sails on 11th, with a good number of passengers and about $f.200,000 in Fondos. She fills here for Antwerp and Liverpool, and has engaged—

1,450 bales
10,000 salt ox and cow hides
9,000 do horse
6,500 dry hides
4,200 bags maize

For Rio—
130 casks tallow
11 horses
203 sheep

She leaves a very full ship.

One of our leading German merchants has received from England some cases of orange champagne, a splendid wine called in Greek 'Hygeia.' This Greek wine possesses high properties and refreshes memory.

To-day for business purposes was Saturday as to-morrow will be a holiday. The payments were very brisk and all the tables crowded, millions paid away; this is the busiest winter we ever remember.

The Kepler will be here on 11th to load for Antwerp and London, she commemorates in this trip her 18th year and was the pioneer ship of the far famed Lamport & Holt line.

Mr E Moreno, of the leading wine firm of Moreno & Fernandez, was welcomed on 'Change to-day on his return from Europe, where he has made wide and splendid business relations.

We regret to say that Mr Gunther, the well-known German broker, is dangerously ill.

The meeting of merchants of the Remate Convenio resulted in the nomination of a Special Committee that meets on Monday to consider the project for total abolition of dry goods auctions; a very important step.

Mr Temple, of Cordova, was enveloped in friends when he entered the hall; he reports everything up there thriving and progressing.

The Prov Bank discounted to-day about 6 millions. The Nat. Bank is also discounting most liberally.

Exchange rules up. The Italian Bank did a very large business for the mail, at 5 francs in paper, over 1½ francs, bills passed to-day at 5.02, on Antwerp 5.21, on London at 49½-⅜, lot of exchange offering, few takers.

Mr Cibils, of Montevideo, was welcomed on 'Change; he is one of the head men of Montevideo and father of Mr Jaime Cibils, one of our most representative merchants in this market. Mr Hermann, the well known artists, also took leave; he sails with the Cedulas in the Orenoque.

The little steamer Tejedor changed her name to-day and now sails as the Victorica. A certainly more euphoneous name. Yet is there anything in a name?

The Sales at afterhours were—
Gold—
For cash 80,000 at 25.80-75
For July 31st 250,000 25.80-75
For Aug. 31st 100,000 25.60-55, sellers.
Sales, 430,000.

National Bank Shares—
For July 31st 400 shares at 97-½
" 300 shares 97⅛-¼
For Aug. 31st 500 shares 98-¼, buyers.

Cedulas A—

Discount brokers report Nat. Treasury bills, 6 months to run, discounted to-day at 6½ per cent, this is the lowest we have heard for this paper and shows the splendid market credit of our Nat. Government

The sale of 8 leagues of land at Curnalanquen at 50,000 mje per league is reported, cost the seller 10,000 mje per league a year or so ago.

The sale of the remaining 16 leagues of the Canepa estate, Santiago del Estero, at 550 pats per league is reported, one of the oldest English houses in this market buyer

At a late hour yesterday a leading broker offered to sell 20,000 pats at 25.55, for the months of S pt., Oct., Nov. and December, and there was not a single buyer; this shows how gold stands.

The failures of an almacenero in Calle Victorio and a Corredero in Calle Piedad are reported; the former has let some of the bonos in for 100,000 mje or so, the failure amounting to two millions. The latter is a small affair, and the concern was unable to meet the great expenses of shop business at present in this city.

The sale of a fine wire fenced estancia within 3 leagues of Rosario, is reported for 30,000 pats, seller Tietjen & Co., buyer F. Eudara.

We hear of a new crop now in the provinces, rice, which grows splendidly in Tucuman, and this year's crop is excellent. At the O'Campo colony, in the Gran Chaco, they have planted this year 200 squares of sugar, and a new mill at a cost of 170,000 francs is going up.

Messrs Billinghurst & Co have sold for Mortgage Bank a chacra in Pilar, 190 squares for $f 5,242.

The clearance of the Orenoque was the business of the day; this mail is perhaps one of the most important that we have had for many years, since she takes the first remittance of Cedulas to Europe ever made from this market. The stock is very largely held by banks and merchants here for European investors, but in all such cases the Cedulas remained here, but now the Cedulas go to London for sale in that market, having been bought here by one of the first houses in this market for London account, and for sale in London the same as Treasury bills. The Orenoque takes the first remittance of 200,000 Cedulas series A, and also a large remittance of Nat. Treasury bills, 150,000 pats, which were bought in this market for London account at 18 and 20 prem. The Cedulas cost from 98 to 99. In view of this new market opening for our Cedulas, it is probable that before many months are over we shall have large orders for this splendid stock, and although there is always a free supply of Cedulas than National Treasury bills, still with money abundant here and in Europe, it is not out of the way to consider that prices will advance, and the 8 per cent Cedulas rank at a good premium. Many parties on 'Change yesterday contradicted the rumour of a London order for Cedulas, but the matter is now beyond all question and it is very likely that next week orders from another quarter in London will come out to purchase a much larger amount.

The purchase of a fine lot of deposit wool, about 20,000 ar., by a leading American exporter is good news for the wool men; wools are at last moving.

The arrivals of wool for the fortnight are marked at 50,000 ar., and the sales 300,000 ar. Stock now say 820,000 ar. Total arrivals to date 5,940,000 ar. Sales 5,120,000 ar.

To-day, we understand, the Romero project goes for the first time before Congress, where there is a sweeping majority in its favor. Many measures of great importance are now on the order of the day for the house, viz—

Romero consolidation project.
Municipal reform bill.
Expropriation of Riachuelo
Railway from Santa Fe to Santiago del Estero
Railway from Rioja to Catamarca.
Pavement of Capital.
Sales of lands, South Rio Negro.
Federalization of Misiones.
Payment of Municipal debts.
Conclusion City Improvement Works.

All these bills are of the highest importance to this country, but it will take the whole session to get them through, if the debates in the Deputies spin out as to the press: t.

A very important letter on German emigration to the Plate was published this morning. We hold it over for translation. A tide of German emigration to the Plate is worth all our loans, Consols, &c.

The following return from our Corrales for last month is important—

Haciendas introducidas	20,230
Muerta	14,641
A invernar	3,311
A abasto	1,993
A embarque	16
Existente	264

The Neva's mails were delivered early; we welcome back to the River Plate our old friend Mr John Rorke. The *Times* of 9th June gives the following:—

"A tolerably good demand for money is maintained in the open market, but there is no inquiry at the Bank. Some gold from Scotland is now returning to London, and this will tend to strengthen the reserve, though it is doubtful if there will be any improvement in to-morrow's return; but it would still be inexpedient, we believe, to entertain the question of a reduction in the Bank rate, the state of the market being substantially unchanged from what it was a week ago.

"The Stock Markets have again been dull in nearly all departments in consequence of the continuance of realisations. There are also some sales by operators for the fall, which have a great effect when there is little business generally. The state of affairs in Ireland is referred to as causing a little distrust for Home securities; but the sensitiveness of the markets generally is such that probably we should have much the same state of things as is now witnessed without any political incidents. English Government securities have again been weak, but there is no material change of price. Consols for money are quoted 100 to 100⅛, and for the account 100 3-16 to 100 5-16. New Threes and Reduced 99¾. Two-and-a-Half per Cents 88 to 88⅛. India Three-and-a-Half per Cents fell ½. "In regard to the loss of the American ship Victoria, briefly noticed on the 15th ult., we have to thank the U. States Consulate for the following particulars of the disaster:—

"Capt. Robert Bayley jr. arrived at this port on the 24th of June and reported the total loss of the Amer. ship Victoria, of Newburyport, Massachussets, U. S. A., late under his command.

"The Virginia sailed from Amsterdam on the 7th of Jan. last, laden with Bessemer steel rails and bound for San Francisco. Off Cape Horn she encountered violent storms and sprung a leak. Captain Bayley tried to make the port of Valparaiso, but on the 19th April, the ship being in a sinking condition, he beached her on Madre de Dios island, on the West coast of Patagonia, and succeeded in saving his crew by taking to the boats. They soon met a sealing schooner, from which they were taken by a German steamer bound for Montevideo, where they were landed. One seaman was lost off Cape Horn, and another was washed overboard on the morning of the wreck."

"The vessels for the West Coast this year have been unfortunate. Six or seven have had to put into Rio for repairs, the British ship Lizzie Parry, with rails from Antwerp for California, is at Montevideo, as are also the British barque Kate Irving, from Newport, with rails for the Sonora Railway leaky and with mutiny on board, and the American ship Sarah Hignet, from New York for Valparaiso, the Captain having fallen dangerously ill."

IN FRACTIONS OF
100 squares of 150 varas
Suitable for
Small Estancias or first class Chacras
ON JULY 10th
At 2 p.m.

I shall auction, by order of the proprietor, this splendid camp, situated in the Department of Villaguay, on the bordess of the Department of Uruguay, 14 leagues from the capital of the Prov. It is surrounded by important establishments such as those of Don Aurelio Jorge, D Eduardo Almagro, D Teofilo de Urquiza and the heirs of Benitez. The pasture is of the first quality suitable alike for sheep and cattle or for agriculture, the greater part being black vegetable earth, 50-60 centimetres in depth.

Persons interested in seeing the land can take the bus which leaves Uruguay for Villaguay on Mondays and Thuredays, and will leave them at the estancia of Don Teofilo de Urquiza, where they will find a person to shew them the land.

Advantageous conditions of sale

The sale will commence at the upset price of $f4 or $100 m/c per square of 150 varas, payable as follows—¼th part on signing the deeds, and the remainder in instalments with interest at 1 o/o monthly at 1, 2 and 3 years

A better opportunity cannot be offered to acquire a good piece of land. In this Province $200 per annum is paid per square of land for agriculture and we offer to sell the property for the half of what is paid here for rent, bearing in mind that this land is admirably situated for agriculture on a large scale not only by the fertility of the soil but also for the facility of river transport. The title deeds, which are in the best order, will be delivered GRATIS to the buyers.

The auction will take place in my office, San Martin 90, on the day and date named. For more particulars apply at my office.

Note—Our object in offering these lands on such convenient terms is to attract a population of agriculturists and labourers to these very fertile and productive lands.

El Domingo 10 de Julio,
A las tres en punto de la tarde,

Procedere a vender a la mas alta postura sobre la base de $150,000 m|c, la finca ubicada Calle de Mejico 635, entre San Jose y Lorea, uno de los mas centrales y mejores barrios de la Capital, calle ancha y empedrada; pasa por la puerta el Tramway Lacroze, edificada en terreno de 8½ varas de frente por 52 de fondo, constando de dos pisos, uno bajo y otro alto; el primero se compone de 10 piezas, una magnifica sala con dos hermosas ventanas a la calle, antesala, dormitorio, un gran comedor y cinco habitaciones mas, cocina, letrina, sumidero, un gran algibe de 70 pipas, cañeria de gas en toda la casa, las primeras 4 piezas empapeladas y cielos razos de yeso, como tambien la galerias y saguanes. Una bonita balaustrada al fondo, patios todos embaldozados, puerta de reja al zaguan, puerta de calle de cedro, zaguan embaldozado con mavmol; las mochetas y frisa a la calle tambien de marmol

El segundo piso se compone de seis piezas, una gran sala a la calle con balcon corrido y tres bonitos aposentos, cocina, letrina, sumidero, gran escalera de cedro etc., todas las piezas con cielos rasos y empapeladas. Techos maderas duras y embaldozados.

Esta casa propia para renta, pues podra producir alquilada muy barata $1:00 mensuales la casa baja y 700 la alta, o sea mas de 1½ p§ mensual, ocupada actualmente por dos familias y una imprenta redituando 1800 ps. mensuales toda ella. Esplendida oportunidad para el que quiera colocar bien su dinero, garantiendo titulos de primer orden, pues ha pasado por el crisol del Banco Hipotecario.

La casa podra verse a cualquiera hora del dia, y por mas datos y ver los titulos Calle Piedad 906.

Recomendamos esta verdadera pichincha, pues la base es la mitad justa de su valor; no debiendo olvidar tampoco que es el momento de comprar bienes raices, pues estos comienzan a tomar gran importancia, y sera difícil mas tarde encontrar negocios tan ventajosos.

La casa esta ocupada por dos familias y una imprenta.

Importantisimo Remate
JUDICIAL
De 2 y 1|2 leguas de Campo
De primer orden
Lo que se vendera en fracciones o el todo, al gusto de los compradores.
En el Partido del Bragado
A seis horas de la Capital
Campo denominado
"LAS CAÑAS,"
Perteneciente a la testamentaria del Sr. Don S. Soriano,
Con poblaciones, galpones, quintas con mas de setenta mil plantas, Alamos, sauces y montes de esquisita fruta, plantadas hace mas de 6 a 8 años.
TASACIONES:
Legua de campo $565,000 m|c, Base para la venta 2|3 partes, $376,667.
Poblaciones, galpones, plantas etc., $100,400. Base para la venta 2|3 partes, ps. 66,934 m|c.

En nuestra casa
CALLE VICTORIA 156
El Martes 12 de Julio,
A las 3 de larde,

Venderemos, sirviendonos de base las 2|3 partes de las tasaciones, y por orden del Sr. Juez de 1ª Instancia, Dr. Bustos, este esplendido campo, pudiendo abonarlo el comprador 1|3 parte al contado y las otras 2|3 firmando letras provia aceptacion del Banco de la Provincia; este campo es magnifico para ovejas y como una prueba de lo excelente podemos garantir a los interesados que los que lo han esplotado han obtenido 22 o/o de peso en las lanas. Los linderos son por un lado los herederos de Railef, por el otro el Sr Don Antonino Cambaceres, y por los otros varios propietarios.

Campos en las condiciones de este es difícil obtener hoy por precios como en el que fue este tasado hace 6 años; los buenos pastos de que esta dotado, aguada y la proximidad al pueblo del Bragado le aseguran un porvenir dentro de pocos anos.

Las poblaciones son las siguientes: Una de 18 vs de frente por 9 de fondo, compuesta de 5 piezas, un galpon de esquila, varias otras piezas, cocina, etc.

La Quinta es de quinientas vs por costado, alambrada con postes de ñandubay y zanja, monte de duraznos, guindos, acacias, paraisos, sauces, alamos, tres tablones de alfalfa, dos corrales para ovejas, etc.

Los compradores tienen tiempo de visitar este campo antes del remate, pues ya saben que no dista mas que 4 leguas del Bragado, pudiendo salir de la Capital todos los dias.

Los titulos, que son de primer orden, pueden verse lo mismo que el plano en nuestra casa Victoria 156.

Al mismo tiempo

Venderemos una majada de ovejas mestizas Rambouillet.

Dos manadas de yeguas, una de ellas con padrillo mestizo.

The Neva Mail's.

London, June 9th.

A report from Candahar, as yet unconfirmed, is transmitted by the Viceroy of India, to the effect that the Ameer's troops, after an engagement lasting four hours, have defeated the irregular force under Sirdars Muhammad Hassim, Mahomad Hassan, and Abdulla.

The delay in the signing of the Turco-Greek Convention, which has been ratified by the Powers, is attributed by our Special Correspondent at Constantinople to the dislike which every Turkish official feels to put his name to an instrument which will alienate territory from Turkey. He thinks the difficulty will be got over by all the delegates signing together.

The Austrian Ambassador at Constantinople has taken the opportunity of an interview with the Sultan to present him with the Order of St Joseph, to complain of the delay which Said Pacha, the Prime Minister, is interposing in the transaction of international business. The Ambassador has broken off relations with the Porte until some decision has been come to about the junction of the Austrian and Turkish railways. The sultan ordered an immediate report to be made to himself on the subject.

The Russian Government is preparing, in conjunction with the Merv Deputies, a Treaty which will convert the district around that city into a Russian province. A Russian Resident Agent will henceforth control the affairs of Merv.

Our Vienna Correspondent states that there is no foundation for the report that Austria-Hungary is prepared, if necessary, to despatch troops to occupy Bulgaria.

The Cape House of Assembly has resolved upon important extensions of the railway system in South Africa.

A great strike of working brewers, says our Special Correspondent in New York, has taken place there, at Brooklyn, Newark, and Staten Island. It arose out of the dismissal of one man only; but there is now a general demand for a reduction of the working hours. A strike of labourers on the New York, Ontario, and Western Railway has also occurred.

Spain contemplates holding an Exhibition of Home and Colonial Products and Manufactures in 1883, and plans of the requisite buildings are to be prepared forthwith.

The Princess Christian opened a bazaar yesterday at the Albert Hall in aid of the funds for completing the Chelsea Hospital for Women. The hall has been transformed into an old English market-place; and at the various stalls, which are shops after the ancient model, lady members of the fashionable world preside. The fair will remain open two days longer.

Sir R A Cross presided at Southport last evening at the dinner of the Annual Moveable Committee of Odd Fellows. He spoke highly in praise of Friendly Societies among the working classes, and of their efforts by those means to benefit their position.

Sir Michael Hicks Beach, M.P., speaking at a Conservative demonstration at Cheltenham, last evening, strongly condemned the Transvaal policy of the Government. The Greek policy of the Government had also been a total failure, for they had settled nothing, and led Greece into ruinous expenditure. In Ireland the defenders of law and order had been discouraged, and the Roman Catholic priesthood alienated from an interest in the preservation of peace.

Mr E. Stanhope, M.P., speaking at a meeting of Conservative working men at Retford, last evening, referred to the action of the Government in reference to the Transvaal as one of 'chop and change,' and to the Ministerial policy towards Ireland as being one of feebleness and ignorance.

A Conference of Delegates of Trade Societies and Political Clubs, convened by the Democratic Federation, was held yesterday, at which a 'platform' was adopted, the principal points in which consist of the abolition of the House of Lords, the nationalisation of the land, and the legislative independence of Ireland. The Delegates were not unanimous on the question of 'adult' suffrage, as that would include women.

The Theatre Royal, Belfast, was destroyed by fire yesterday morning. It was the property of Mr J. F. Warden.

The cricket match between Derbyshire and Kent, played at Derby yesterday, resulted in a victory for Kent by seven wickets. The match at Lord's between the Over Thirty and the Under Thirty ended in the defeat of the juniors by seventy-nine runs.

At Manchester Mr M Dawson won the John O'Gaunt Plate with Ulster Queen, Mr F Webb the Selling Stakes with Flighty, Mr T Brown the Duchy Welter Handicap with Tonans, Mr P H Cooper a Plate of 150 sovs. with Star and Garter, Mr Townley-Parker the Stewards' Welter Handicap with Sister Margaret, and Sir J D Astley the Public Auction Stakes with Medicus. At Croydon Mr Price won the Norwood Handicap with Havock, Mr T Stevens the Maiden Two-yr-old Plate with Oyster Nan, and Mr C. Brewer the Woodside Plate with St. Augustine.

In the Stock Markets yesterday fresh sales resulted in a general relapse, extending to all descriptions. Consols for money were stationary at 100 to 100½, but for the account receded 1-16, to 100 3-16 100 5-16. With the exception of Metropolitan and North-Western, Home Railways participated in the downward movement, North-Eastern, North Stafford shire, and Great Northern being especially affected. Among Foreign Government Securities, Russian, Turkish, Egyptian, Peruvian, and Mexican were depressed. Gold to the value of £28,000 was received at the Bank from abroad, making an efflux on balance for the week of £7000.

STATE OF IRELAND.

Skibbereen, (County Cork).

To-day has been one of great excitement, not only in Skibbereen, but also in the neighbouring towns of Ballydehob and Skull. In all of these serious riots took place yesterday, which threatened at one time to cause considerable bloodshed. Fortunately, the bad results foreshadowed were not realised. The outbreak is not immediately connected with evictions.

A few days since a leading member of the Land League, Mr Mahony, was arrested at Ballydehob, and was afterwards rescued. Since then an impression has gained ground that Father Murphy, the parish priest of Skull, was to be made a prisoner. This his parishioners resolved should not be the case, and on Monday night they assembled in hundreds round his house to prevent such an occurrence. A force of police was sent from here yesterday to Ballydehob, which is about twelve miles distant, and this appears to have been taken as a portion of coming events. The town was paraded by a large mob of the lower classes, and three or four houses were almost wrecked, amongst them being the premises of the Munster Bank and the shop of the man who supplied some cars to the police. No arrests were made, as the force was not strong enough to take such a step; but summonses will be issued against the ringleaders.

The Resident Magistrate telegraphed to Cork for Military assistance, and a flying column of about 300 men of the Rifle Brigade, under the command of Colonel Edridge, 20th Regiment, was sent off at midnight. They reached here this morning at 3 o'clock, and after unloading the baggage train and leaving a company in this town, marched in the direction of Ballydehob, where it was reported that the roads were torn up and the telegraph wires cut. The latter was correct, but the former inaccurate. The column started at 8 o'clock; but, after going five miles, were ordered to return. So far the wires were all right.

I went on to Ballydehob, and found the town itself in the utmost excitement. I was anxiously questioned as to the military operations. Passing on to Skull, I found the wires cut in every direction and lying all over the road.

At Skull, which is a small sea coast village on the extreme south western coast, the streets were filled by a mob that appeared ripe for any mischief. The gunboat Goshawk was in the bay, and it was reported that she was ready to fire upon the town. Another idea was that she had come to take Father Murphy prisoner.

On my arrival I was narrowly watched, and the blowing of horns brought about me in the course of five minutes a body of some two hundred men armed with sticks. Fortunately I met Father Bernhard from Ballydehob, who satisfied them as to my pacific intentions, and I was allowed to proceed unmolested.

The gunboat arrived at an early hour, and two boats left the harbour at midday, apparently for practice. A bullet, however, reached the shore, and wounded the wife of a farmer named Harley. The excited people thought they were being fired upon, and a dangerous riot was for the time imminent, but the priests managed to quell it.

I afterwards had an interview with Father Murphy, who is being guarded night and day by his people. They say they will rather die than allow him to be taken, but so far as I can gather there is no ground for any idea that he is to be apprehended.

Yesterday the military were telegraphed for to Bantry, and a force of 50 Marines was despatched to Ballydehob, where they met with great resistance, stones being freely thrown at them. One or two men were severely injured, and they at last withdrew without retaliating on the people, who outnumbered them by fifty to one. A very bad feeling exists, and there appears every probability of a serious collision between the authorities and the people. When the troops were on their way to-day an obstruction was placed on the line; but it was discovered in time to prevent any mischief. It was intended that the soldiers should return to Cork to-night with the exception of a single company, but that order has been countermanded.

The line of rails had been cut between here and Cork, near Drimoleague, but was immediately repaired, and traffic has been resumed. It will take many days to repair the telegraph wires, as about four miles are out of of order.

To-night the whole of the publichouses in this town have been closed by order of the magistrates, and patrols of police and military are parading the town. This morning they were well hissed and groaned at, but to-night the people are more composed, but very sullen.

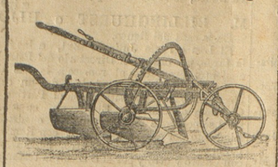
HOWARD'S CELEBRATED PLOUGHS

Howard's Double Plough.



The above implement effects great economy in the time and cost of ploughing, and its success has been very marked wherever it has been introduced. The depth of work can be regulated by the lever as the plough proceeds; and at the ends, the plough is lifted by the same lever clear off the ground.

The implement is so strongly constructed hat in the hands of Kaffirs it cannot readily be injured.

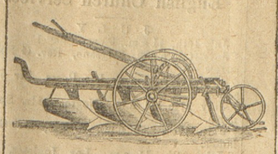
Howard's Triple Plough.



This is similar in construction to the proceding implement, but made to take three furrows. It may at once be converted into a Double Plough by the removal of the hinder body, and this is sometimes desirable on ground where the draught is heavy.

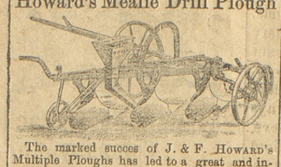
Howard's Mealie Drill Plough



The marked succes of J. & F. Howard's Multiple Ploughs has led to a great and increasing demand for these labour-saving implements.

In addition to the economy effected by their use in time and wages, their usefulness has been materially increased by the addition of a simple drill which deposits the seed in the middle furrow, where it is immediately covered with the earth raised by the next plough share.

By this means the cost of sowing is avoided, and no seed is wasted by being exposed to birds or vermin, nor is it trodden by the draught cattle. The seed is moreover sown at a uniform width and depth, and thus a regular growth of the crop is insured.

Good News for Sheep Farmers

The well-known Veterinary Surgeon

Mr Robert Hall, M.R.C.V.S

Inventor and Sole Manufacturer of the popular

HALL'S SHEEP DIP

Having determined to introduce this valuable Composition into general use in the Argentine Republic, has appointed Messrs Barnett & Co. his Agents for the River Plate.

This Dip is preferred to all others in Australia and New Zealand, where it has successfully stood a competitive trial for many years. The Inventor claims for this Dip the following advantages—

1st—It is instantly and completely soluble in either warm or cold water.

2nd—It is non poisonous in its effects on Wool or Sheep, and healing to all Sores on the Skin.

3rd—It is a certain preventive, and perfect cure for SCAB.

4th—It most effectually destroys Red Lice, Sheep Ticks, Maggots and every other kind of Parasite found on Sheep and Cattle.

5th—It is acknowledged by all who have used it, to be the best composition known for improving the quality and promoting the growth of the Wool.

6th—The Dip is invaluable for protecting the Sheep from the attacks of Flies and Maggots.

This Dip has been imported into this country by some large Sheepfarmers already, and used in preference to any other, for some years back; but it is only lately an Agent has been appointed.

Important

This Dip is guaranteed to be manufactured only by the Inventor in England, and is of course very superior to the many Dips made in this country.

Dr. Jayne's EXPECTORANT

Stubborn Coughs & Colds

Yield promptly to the healing and curative properties of

DR. JAYNE'S EXPECTORANT

It loosens and promotes the expectoration of irritating matter, mitigates much pain and distress, and checks inflammation.

Bronchitis, Asthma, and Throat Troubles

Are at once relieved by

DR JAYNE'S EXPECTORANT

It removes constriction of the Bronchial Tubes, loosens phlegm, soothes and heals the mucous membrane, arrests any feverish tendency, and helps to forward a rapid cure.

Consumption, Pleurisy and Lung Affections

Are generally controlled and ameliorated by

DR JAYNE'S EXPECTORANT

It saves the lungs from much irritation and distress, by relieving them of the irritating matters by which they are clogged; it also suppresses inflammation, and gives the affected parts a chance to heal.

Whooping Cough, Croup, Hoarseness, and Loss of Voice

Are efficaciously treated by

DR. JAYNE'S EXPECTORANT

It removes difficulty of breathing and oppression in the throat or lungs, promotes the ejection of mucus, and subdues the violence of these complaints at the outset. It is a safe Family Curative of long-established reputation, and where promptly administered has enabled many to escape serious lung affections.

MALTINE

(Extract of Malted Barley, Wheat and Oats)

The Original and only Reparative Composed of these three Cereals.

MALTINE is a highly concentrated extract of malted Barley, malted Wheat, and malted Oats, containing, undiminished and unimpaired, all the nutritious principles that can be extracted from these cereals. By the most carefully conducted scientific process we are enabled to offer a perfect article, possessing five to ten times the beneficial and nutritive merit of any alcoholic or fermented Extract of Malt.

"WHEAT and OATS are especially rich in muscular and fat-producing elements."—Liebig.

MALTINE will increase both weight and flesh in most persons of thin habit.

MALTINE is particularly recommended for delicate Females and for weak and debilitated Children and Infants.

For Deficient Lactation, and for Mothers whilst Nursing, MALTINE is especially recommended.

MALTINE is the most important combination for use in Constipation.

MALTINE is entirely free from all products of Fermentation, such as Alcohol and Carbonic Acid Gas.

MALTINE is very palatable and pleasant, and will be readily taken by the youngest child.

The Compounds of Maltine

Can undoubtedly be used with greater success than any other remedy now known in diseases of General and Nervous Debility, Indigestion, Imperfect Nutrition, and Deficient Lactation; Cholera Infantum and Wasting Diseases of Children and Adults; Convalescence from Fevers, and whenever it is necessary to increase the vital forces and build up the system.

For Consumption and Wasting Diseases

MALTINE with Cod Liver Oil—The most perfect emulsion and most agreeable and effective mode of administering this nauseous but valuable Oil yet discovered.

MALTINE with Hypophosphites.—This preparation is specially indicated in Consumption, Rickets, and deficient Ossification.

MALTO-YERBINE.—A most palatable and efficacious remedy and substitute for Cod Liver Oil in the treatment of Consumption and Wasting Diseases; also the most perfect remedy yet produced in Chronic Pulmonary Affections, Coughs and Colds.
